

Information Sheet

Multi Purpose Geotech Package

Complete package ready for walk up start including refurbished track mounted drill rig, FM12 Volvo, Isuzu 4x4 support vehicle, forklift, workshop equipment, drilling consumables and so on...

Drill Rig

Refurbished (late 2009) and strengthened multi purpose, track mounted drill rig currently set up for site investigation work.

Rig is mounted on a Yanmar C50R track base with 0.5m wide Bridge-stone rubber tracks and it is all powered by a Perkins 1004-4T 4-cylinder diesel engine.

Rig includes Austeng Engineering rotation head with a 90mm spindle and 3,200Nm of torque, suitable for Air Core, RAB or drilling fluids.

Features include Rexroth hydraulic pumps, hydraulic breakout, wireline winch, hydraulic driven grout pump, Dynaset high pressure water pump and 1m dump mast.

A Sonic head is also included with the rig and both heads utilise the hydraulic sideshift function.

Rig is registered.

Information Sheet

Multi Purpose Geotech Package
